

ACTIVE'S ENVIRONMENTAL POLICY

- Identify the environmental impacts of all aspects of our business and set targets and objectives to continually improve our environmental performance.
- Re-use and recycle wherever and whenever possible.
- Continually seek and improve environmental performance while focussing on reducing energy consumption and minimise or eliminating waste whenever technically and economically viable.
- Comply with all applicable local and national environmental laws, legislations and provisions, including all ethical, moral and legal and other requirements.
- Collaborate and communicate with our customers, suppliers and stakeholders (community, industry, government etc) to improve the protection of the environment.
- Provide appropriate and timely environmental training and communication to our employees to support them in implementing this policy.
